

Bureau of Land Management, Interior

§4110.4-1

(a) Additional forage temporarily available for livestock grazing use may be apportioned on a nonrenewable basis.

(b) Additional forage available on a sustained yield basis for livestock grazing use shall first be apportioned in satisfaction of suspended permitted use to the permittee(s) or lessee(s) authorized to graze in the allotment in which the forage is available.

(c) After consultation, cooperation, and coordination with the affected permittees or lessees, the State having lands or managing resources within the area, and the interested public, additional forage on a sustained yield basis available for livestock grazing use in an allotment may be apportioned to permittees or lessees or other applicants, provided the permittee, lessee, or other applicant is found to be qualified under subpart 4110 of this part. Additional forage shall be apportioned in the following priority:

(1) Permittees or lessees in proportion to their contribution or stewardship efforts which result in increased forage production;

(2) Permittee(s) or lessee(s) in proportion to the amount of their permitted use; and

(3) Other qualified applicants under §4130.1-2 of this title.

[53 FR 10233, Mar. 29, 1988, as amended at 60 FR 9963, Feb. 22, 1995]

§4110.3-2 Decreasing permitted use.

(a) Permitted use may be suspended in whole or in part on a temporary basis due to drought, fire, or other natural causes, or to facilitate installation, maintenance, or modification of range improvements.

(b) When monitoring or field observations show grazing use or patterns of use are not consistent with the provisions of subpart 4180, or grazing use is otherwise causing an unacceptable level or pattern of utilization, or when use exceeds the livestock carrying capacity as determined through monitoring, ecological site inventory or other acceptable methods, the authorized officer shall reduce permitted

grazing use or otherwise modify management practices.

[53 FR 10234, Mar. 29, 1988, as amended at 60 FR 9963, Feb. 22, 1995]

§4110.3-3 Implementing reductions in permitted use.

(a) After consultation, cooperation, and coordination with the affected permittee or lessee, the State having lands or managing resources within the area, and the interested public, reductions of permitted use shall be implemented through a documented agreement or by decision of the authorized officer. Decisions implementing §4110.3-2 shall be issued as proposed decisions pursuant to §4160.1, except as provided in paragraph (b) of this section.

(b) When the authorized officer determines that the soil, vegetation, or other resources on the public lands require immediate protection because of conditions such as drought, fire, flood, insect infestation, or when continued grazing use poses an imminent likelihood of significant resource damage, after consultation with, or a reasonable attempt to consult with, affected permittees or lessees, the interested public, and the State having lands or responsible for managing resources within the area, the authorized officer shall close allotments or portions of allotments to grazing by any kind of livestock or modify authorized grazing use notwithstanding the provisions of paragraph (a) of this section. Notices of closure and decisions requiring modification of authorized grazing use may be issued as final decisions effective upon issuance or on the date specified in the decision. Such decisions shall remain in effect pending the decision on appeal unless a stay is granted by the Office of Hearings and Appeals in accordance with 43 CFR 4.21.

[60 FR 9963, Feb. 22, 1995]

§4110.4 Changes in public land acreage.

§4110.4-1 Additional land acreage.

When lands outside designated allotments become available for livestock grazing under the administration of the Bureau of Land Management, the forage available for livestock shall be

§ 4110.4-2

made available to qualified applicants at the discretion of the authorized officer. Grazing use shall be apportioned under § 4130.1-2 of this title.

[53 FR 10234, Mar. 29, 1988]

§ 4110.4-2 Decrease in land acreage.

(a) Where there is a decrease in public land acreage available for livestock grazing within an allotment:

(1) Grazing permits or leases may be cancelled or modified as appropriate to reflect the changed area of use.

(2) Permitted use may be cancelled in whole or in part. Cancellations determined by the authorized officer to be necessary to protect the public lands will be apportioned by the authorized officer based upon the level of available forage and the magnitude of the change in public land acreage available, or as agreed to among the authorized users and the authorized officer.

(b) When public lands are disposed of or devoted to a public purpose which precludes livestock grazing, the permittees and lessees shall be given 2 years' prior notification except in cases of emergency (national defense requirements in time of war, natural disasters, national emergency needs, etc.) before their grazing permit or grazing lease and grazing preference may be canceled. A permittee or lessee may unconditionally waive the 2-year prior notification. Such a waiver shall not prejudice the permittee's or lessee's right to reasonable compensation for, but not to exceed the fair market value of his or her interest in authorized permanent range improvements located on these public lands (see § 4120.3-6).

[43 FR 29067, July 5, 1978, as amended at 49 FR 6451, Feb. 21, 1984; 49 FR 12704, Mar. 30, 1984; 54 FR 31485, July 28, 1989; 60 FR 9963, Feb. 22, 1995]

§ 4110.5 Interest of Member of Congress.

Title 18 U.S.C. 431 through 433 (1970) generally prohibits a Member of or Delegate to Congress from entering into any contract or agreement with the United States. Title 41 U.S.C. 22 (1970) generally provides that in every contract or agreement to be made or entered into, or accepted by or on behalf of the United States, there shall be inserted an express condition that no

43 CFR Ch. II (10-1-03 Edition)

Member of or Delegate to Congress shall be admitted to any share or part of such contract or agreement, or to any benefit to arise thereupon. The provisions of these laws are incorporated herein by reference and apply to all permits, leases, and agreements issued under these regulations.

Subpart 4120—Grazing Management

§ 4120.1 [Reserved]

§ 4120.2 Allotment management plans and resource activity plans.

Allotment management plans or other activity plans intended to serve as the functional equivalent of allotment management plans may be developed by permittees or lessees, other Federal or State resource management agencies, interested citizens, and the Bureau of Land Management. When such plans affecting the administration of grazing allotments are developed, the following provisions apply:

(a) An allotment management plan or other activity plans intended to serve as the functional equivalent of allotment management plans shall be prepared in careful and considered consultation, cooperation, and coordination with affected permittees or lessees, landowners involved, the resource advisory council, any State having lands or responsible for managing resources within the area to be covered by such a plan, and the interested public. The plan shall become effective upon approval by the authorized officer. The plans shall—

(1) Include terms and conditions under §§ 4130.3, 4130.3-1, 4130.3-2 4130.3-3, and subpart 4180 of this part;

(2) Prescribe the livestock grazing practices necessary to meet specific resource objectives;

(3) Specify the limits of flexibility, to be determined and granted on the basis of the operator's demonstrated stewardship, within which the permittee(s) or lessee(s) may adjust operations without prior approval of the authorized officer; and

(4) Provide for monitoring to evaluate the effectiveness of management
